

# Visitor Guide / Help Sheet

Half Moon has produced a comprehensive Risk Assessment to outline how we are safely re-opening the Theatre to employees, visiting contractors and participants / audiences following the COVID-19 outbreak. This extensive Risk Assessment is available on our website and we encourage everyone who feels able to read it all to do so.

For those who may find it easier to read a summary, this document is a simple Visitor Guide / Help Sheet of the steps we have taken and continue to take that are most relevant to you, as people coming into Half Moon on a regular basis or as a visitor to the building, including contractors.

## **Our Risk Assessment:**

- is based on current Government, Public Health England (PHE) and other relevant guidance including those for out-of-school settings, theatre venues, galleries and multi-purpose community settings and will be continuously adapted if there is any change in this guidance;
- aims to reduce, so far as is reasonably practicable and with your support, the risk of infection from and spread of COVID-19.

## **Half Moon:**

- complies with social distancing guidelines based on current Government and PHE guidance;
- has a regime in place for increased formal cleaning, focused on high traffic areas / touch points. As a result, every day we undertake an extensive clean of the building, as well as additional cleaning in rooms / locations between sessions / activity when used by different groups;
- has adapted all activity sessions and working practices to reduce the risk of infection spreading.

## **The changes we have made include:**

- Reducing the number of core staff present in the building to only those necessary. Others will continue to work from home;
- Taking the temperatures of all staff, visitors, audiences and activity participants on arrival using a laser safe thermometer, ensuring that those with high temperatures or showing any Covid symptoms do not enter the theatre and follow government guidance regarding Test and Trace;
- Ensuring that participant / audience numbers are informed by current Government and PHE guidance;
- Maintaining and promoting social distance wherever possible;
- Encouraging the practise of good hygiene including washing hands with soap and running water for 20 seconds before and after sessions / activity / performances take place. Everyone will be encouraged to avoid touching their face and refrain from any physical contact;
- Removing all seating from the main working space, creating a large open room. We will use our newly installed ventilation system to create airflow;
- Providing guidance on how to move around the building supported by enhanced signage;
- Providing antibacterial gel and enhanced handwashing facilities;
- Minimising the number of people coming in and out of the building ensuring that visitors and contractors are booked in to attend;
- Ensuring that anyone with Covid symptoms does not come to the building and follows government guidance regarding Test and Trace.

# Visitor Guide / Help Sheet

## Things we ask you to consider:

### For Everyone

#### Face Coverings / Masks

All participants / visitors over 11 years old (school Year 7 plus), are expected to wear a face covering / mask when entering the building and this must be kept on until they leave unless there is a reasonable excuse for removing it or they are exempt from wearing one.

We will:

- recognise that there are some circumstances where it may not be appropriate for someone to wear a face covering and that the reasons for this may not be visible to others.
- on request, provide a simple 'exemption card' to support individuals when visiting Half Moon and for use in the wider community.
- not unreasonably refuse access to the building, and will provide, if appropriate, a disposable face mask to allow everyone to enter the building safely.

Note that it is not a requirement for any staff including our freelance team and artists who work for Half Moon to wear a face covering / mask.

### For parents / carers and participants taking part in participatory activity

- Parents / carers are encouraged to limit the number of out-of-school activity settings their child or they themselves attend in a week.
- Parents / carers are encouraged not to come into the Half Moon building when dropping off or picking up their child and we ask that, wherever possible, only one parent / carer at a time drops off and picks up (if you envisage this will be a problem for you or your child, please contact us to discuss).
- Young people and parents / carers are encouraged to walk or cycle to Half Moon wherever possible and avoid public transport as much as possible.
- Young people and parents / carers are encouraged to limit the number of possessions they bring with them to Half Moon to essential items only.
- Everyone is encouraged to bring their own water bottle to refill at Half Moon.

IMPORTANTLY, it is not necessary for anyone taking part in a participatory activity to wear a face covering / mask during the sessions. The face covering can be removed when entering the room where the session is taking place.

### For visitors including contractors

- Visitors must book their attendance in advance with Half Moon staff. They will be allocated a member of staff who will act as their contact throughout which may include supervision
- Adhere to our guidelines at all times.

### For audiences attending performances and / or the gallery

Presently, Half Moon will not be presenting live performances or accessing the gallery spaces to the public. This guidance will be updated when this situation changes.

# Visitor Guide / Help Sheet

## **For Half Moon's freelance staff and artists**

A member of the core Half Moon team will contact you in advance of your time being with us at Half Moon. They will induct you regarding any relevant guidance to make your time at Half Moon safe. Note that it is not a requirement for any staff including our freelance staff and artists who work for Half Moon to wear a face covering / mask.

## **COVID-19: Illness / Symptoms / Test and Trace**

If, on a day you are coming to Half Moon, you, or any member of your household shows symptoms of COVID-19, however mild, or you have received a positive COVID-19 test result, or have been told to self-isolate by the government's Test and Trace service, **DO NOT COME TO HALF MOON**. Call Half Moon and tell us. It is then your responsibility to take a test if you haven't done so already.

Similarly, if, less than 72 hours since you last came to Half Moon, you, your child or any member of your household shows symptoms of COVID-19, has received a positive COVID-19 test result, or have been told to self-isolate by the government's Test and Trace service, again call Half Moon and tell us. **DO NOT COME TO HALF MOON**. It is then your responsibility to take a test.

**DO NOT** contact anyone who you know has been at Half Moon at the same time as you. It is our responsibility to inform everyone who may be affected if required by the Test and Trace service: this only takes place if there is a positive test result.

If your result is negative, you may return to Half Moon.

Please note, the most important symptoms of COVID-19 are:

- a new continuous cough;
- a high temperature;
- a loss of, or change in, normal sense of taste or smell (anosmia).

Many thanks for reading this document. Please feel free to ask a member of staff for any clarification on anything written in this document. At Half Moon, we aim to be as safe as possible for everyone. We cannot stop COVID-19 but if we work together, we can minimise the risks. The link to the full Risk Assessment is [here](#).
